

Add an item to the expandable / collapsed Pages

1. Open the page you'd like to edit.
2. Copy one section complete section or this text:[su_spoiler title="The title will go here"] The expanded content will go here [/su_spoiler] and Paste it after a [/su_spoiler]
3. Make sure you're inside [su_accordion] and [/su_accordion]
4. So a full correct set up will look like this, with as many su_spoiler sections you'd like:

[su_accordion]

[su_spoiler title="The title of first expandable section will go here"]

The expanded content will go here

[/su_spoiler]

[su_spoiler title="The title of the second option to expand will go here"]

The expanded content will go here

[/su_spoiler]

[/su_accordion]

5. Preview page to ensure you've set it up properly.
6. Add all your content.
7. Preview as many times as need to layout text how you'd like.
8. Update!

Bonus points! You can add your own expandable sections to any page or post on your site.

Copy and paste this, add as many sections as you need and add to your page/post.

[su_accordion]

[su_spoiler title="The title of first expandable section will go here"]

The expanded content will go here

[/su_spoiler]

[su_spoiler title="The title of the second option to expand will go here"]

The expanded content will go here

[/su_spoiler]

[/su_accordion]
